

HELLO, UTOPIAN. YOUR COFFEES, IN YOUR WORDS.

We listed your lineup from your website and prefilled what we found; correct anything that is off. Your answers do two things: they help us place each coffee on our Bloom Dial, and they shape how we present it, since every coffee gets its own imagery. **The 1 to 5 scales are relative to your own lineup:** 1 is your gentlest coffee on that scale, 5 your most intense. There are no wrong answers.
